WHY SHOULD THE CHURCH CARE?

Sharing the gospel with the Jewish people was the beginning of world evangelism.

The God of Israel in the Old Testament is one and the same with God the Father of Jesus Christ in the New Testament.

Jesus and the apostles ministered to the Jewish people. We as the church should follow in their footsteps.

We affirm that whereas the Jewish people were not strangers to the covenants and promises of God, in the way that Paul describes the Gentiles, they still stand in need of reconciliation to God through the Messiah Jesus. There is no difference, said Paul, between Jew and Gentile in sin; neither is there any difference in salvation. Only in and through the cross can both have access to God the Father through the one Spirit.
